

Renewable EnergyTech

HELEXPO

INTERNATIONAL EXHIBITION FOR GREEN AND SMART ENERGY

7-9 | 3 | 2024

Thessaloniki International Exhibition & Congress Center - GREECE

With the cooperation

Διπολιτισμικό επιχειρηματικό portal για την ενέργεια

In parallel with

Organised by
HELEXPO

The 1st **Renewable EnergyTech**, a new, major international trade fair exclusively for the green and smart energy market will be organised at the Thessaloniki International Exhibition Centre from **7 to 9 March 2024**.

Renewable EnergyTech will provide dozens of enterprises that are active in Greece and Southeastern Europe in the sectors of Renewable Energy Sources, energy storage, hydrogen and green gasses, electromobility, energy saving, smart management applications, and the sectors of green energy economy as a whole, with the opportunity to exhibit their products and services, and to come into contact with potential partners or competitors.

An international congress on RES, storage, and green technologies will be held in the context of Renewable EnergyTech, while specially designed spaces have been provided for within the exhibition facilities for B2B meetings.

The exhibition will be implemented in partnership with the news portal on energy issues with the highest traffic energypress.gr

Participation Cost

Sides open	Type	Cost
One side open	GROUND TRACE (TYPE 1)	130.00€/m ²
Two sides open	GROUND TRACE (TYPE 1)	140.00€/m ²
Three sides open	GROUND TRACE (TYPE 1)	150.00€/m ²
Four sides open	GROUND TRACE (TYPE 1)	160.00€/m ²
Outdoor		60.00€/m ²
REGISTRATION FEE		100.00€

Exhibits

- Photovoltaic equipment companies (panels, inverters, mounts, electronic equipment)
- Wind turbines, small wind turbines
- Biomass, biogas
- Small hydroelectric
- Geothermal energy
- Developers
- Manufacturers
- Energy Communities
- Energy storage (Batteries etc.)
- Heat pumps
- Energy autonomy systems
- Energy saving companies
- Network equipment
- Substations
- Network builders
- Hydrogen companies
- Services (FOSE, financial, meteorological systems, consulting, etc.)
- Park maintenance - monitoring
- Wind turbine protection systems
- Electricity providers
- Charger networks
- Banks
