ORGANIZED BY

HELEXPO

Leading the Future of Green Energy

Renewable EnergyTech, organized by TIF-HELEXPO in collaboration with energypress.gr, is Southeast Europe's top exhibition dedicated to green and smart energy. Join industry leaders, innovators, and decision-makers as they showcase cutting-edge technologies in renewable energy, energy storage, hydrogen, and smart energy solutions. With a focus on innovation and sustainability, this event is your gateway to the booming green energy market in Southeast Europe.

Why Exhibit at Renewable EnergyTech?

1. Unmatched Networking

Connect with key players and decision-makers from Greece, the Balkans, and beyond. Over 500 B2B meetings were organized during the previous event.

2. Global Exposure

Gain visibility and showcase your latest innovations to a diverse audience of industry professionals and government representatives, enhancing your brand's international presence.

3. Showcase Innovation

Present your advanced solutions in renewable energy, storage, hydrogen, and energy efficiency to a highly targeted market.

4. Strategic Location

Thessaloniki is a gateway to Southeast Europe's growing energy market, providing access to new business opportunities in this rapidly expanding region.

What to Expect at Renewable EnergyTech 2026

International Audience

Renewable EnergyTech attracts over 250 exhibitors and visitors from 30+ countries, providing a platform to connect with energy professionals across the region.

Conference on Smart and Green Energy

Attend the International Conference on Smart and Green Energy, where global experts discuss trends, challenges, and innovations shaping the energy sector.

B2B Matchmaking

Take part in the exclusive B2B matchmaking program, connecting with potential partners and clients through pre-arranged meetings.

In parallel with Forward Green

Benefit from synergies with the Forward Green exhibition, exploring opportunities in the circular economy and sustainability.

Exhibition Sectors

Renewable EnergyTech covers:

- **Renewable Energy**
Solar, wind, hydro, and geothermal technologies.
- **Energy Storage:**
Advanced battery systems and large-scale grid storage.
- **Hydrogen & Green Gases:**
Explore hydrogen's growing role in energy transition.
- **Smart Energy:**
The latest in energy management, smart grids, and IoT (Internet of Things) solutions.
- **Energy Efficiency:**
Solutions for reducing energy consumption.

Position your company at the cutting edge of green energy and showcase your innovations to key stakeholders.

IN PARALLEL WITH

The **Forward Green Expo**, organized by TIF-HELEXPO, is a pioneering trade show and conference in Greece and Southeastern Europe. Focused on circular economy and sustainability, it aims to reshape business models to protect natural resources and promote a sustainable future.

TIF-HELEXPO

Leading Greece's Exhibition Industry Since 1925

TIF-HELEXPO is Greece's National Institution for the Organisation of Exhibitions, Conference, and Cultural Events, operating from the heart of Thessaloniki. Established in 1925, it annually hosts over 30 international trade fairs, drawing more than 1 million visitors and 9,000 exhibitors across diverse industries. The Thessaloniki International Exhibition & Conference Center spans 180,000 sq.m., including the Ioannis Vellidis Congress Centre, commercial spaces, and entertainment venues.

Currently, TIF-HELEXPO is planning a major redevelopment-**the Thessaloniki ConfEx Park** - aimed at creating a modern, sustainable exhibition and conference venue. The project includes extensive green spaces, state-of-the-art eco-friendly facilities, upgraded infrastructure, and is expected to drive significant economic growth, positioning Thessaloniki as a leading European business and tourism hub.

Committed to innovation, sustainability, and international collaboration, TIF-HELEXPO plays a vital role in connecting businesses, markets, and communities regionally and globally.
